

# MOHAMED RAYN

Computer Science Engineer | Cybersecurity

**Location:** Sharjah, UAE

**Mobile:** +971-569262354

**Email:** [cyanexr@gmail.com](mailto:cyanexr@gmail.com)

**Socials:** [LinkedIn](#) | [GitHub](#)

**License:** Valid UAE Driving License

## PROFESSIONAL SUMMARY

Computer Science Engineering student (GPA 8.45/10) based in Sharjah, combining a strong technical background in Cybersecurity with practical coding skills in Python and Java. While my internship at Flamingus Technologies sharpened my focus on digital defense, I am equally passionate about building robust systems and managing secure data architectures. I am eager to launch my career in the UAE and am flexible to take on diverse technical challenges, whether in Cybersecurity, IT Support, Database Administration, or Software Engineering, where I can apply my skills and contribute to a team's success.

## EDUCATION

### Manipal Academy of Higher Education

Bachelor of Technology in Computer Science Engineering

Dubai, UAE

Sep 2022 – Present

- *Minor Specialization in Cybersecurity*
- **CGPA:** 8.45/10
- **Specialized Electives:** AI in Cybersecurity, Ethical Hacking, Database & App Security, Social Network Analysis, Deep Learning, Digital Forensics, Cryptography.
- **Core CS Modules:** Database Systems, Data Structures & Algorithms, Computer Networks, Operating Systems, Software Engineering, Object Oriented Programming (OOP), Compiler Design.

### Habitat School Al Jurf

High School Diploma (CBSE)

Ajman, UAE

Completed: 2022

## TECHNICAL SKILLS

- **Cybersecurity:** Network Security, Penetration Testing, Vulnerability Assessment, Metasploit, Wireshark, Nmap.
- **Databases & Systems:** Microsoft SQL Server (T-SQL), Linux (Kali, RHEL), Windows Server, Firebase, VMBox.
- **AI & Programming:** Python (Security Scripting), Java, Machine Learning (Scikit-learn), Data Visualization (Plotly), REST APIs, Flutter.
- **Tools & Methodology:** Git/GitHub, VS Code, Agile Development, Technical Documentation.

## PROFESSIONAL EXPERIENCE

### Flamingus Technologies

Cybersecurity Consultant Intern

UAE

July 2025 – August 2025

- Conducted penetration testing using Kali Linux and Metasploit to identify critical system vulnerabilities.
- Executed security assessments on simulated infrastructures using VMBox to identify attack vectors.
- Authored technical reports for senior management, outlining risks and recommending mitigation strategies.
- Assisted in drafting standard operating procedures (SOPs) for network security and incident response.

## PROJECTS

---

- AI-Based Forensic Log Analysis** [\[Project Link\]](#)*Python, Streamlit, ML, Plotly*
- Developed a SOC dashboard to detect behavioral anomalies in real-time using machine learning.
  - Engineered interactive forensic modules including PCA-based behavior clustering and risk heatmaps.
- Hotel Haven App** [\[Project Link\]](#)*Flutter, Dart, Firebase*
- Engineered a full-stack mobile app with real-time room availability and secure Firebase authentication.
- Car Hunt specifications Portal** [\[Project Link\]](#)*HTML, CSS, JS, REST APIs*
- Built a responsive web platform fetching dynamic vehicle data via REST APIs.

## CERTIFICATIONS

---

- Cybersecurity:** Introduction to Networking (CCNA, 2024), Foundations of Cybersecurity (Google, 2025), Digital Forensics Concepts (2025), RedHat System Administration (2024).
- AI & Data Science:** Deep Learning (2025), Natural Language Processing Essentials (2025), Build Basic GANs (2025), Math for ML: Linear Algebra (2023), Database Management Essentials (2024), Statistics with Excel (2024).
- IoT & Management:** Industrial IoT (2025), Introduction to IoT and Embedded Systems (2025), Project Management Basics (2025), Firm Level Economics (2025).

## SOFT SKILLS

---

- Strategic Problem Solving, Technical Documentation, Team Leadership, Adaptability.
- **Languages:** English (Fluent), Hindi (Fluent), Tamil (Fluent).
